

Shaggy walks into a big house. 'Zoinks' says Shaggy. 'Ry rame's Rooby Rooby Roo!' says Scooby Doo. Fred says nothing, as this is one of the later episodes and he's been cancelled. Sorry, pretty boy, but NECKTIES DON'T = RATINGS. Stupid stinky hippy stoners and retarded talking dogs do though. Okay? Good. Anyway, Ghost Rider turns up, and all the comic fans start typing/masturbating furiously, whilst screaming 'OMG WTF www.LOL2002.com!!!!' at the top of their lungs. There's some confusion over whether Ghost Rider is good or bad, seeing as how he's got a flaming skull for a head, and the gang discuss the meta-philosophical capabilities for someone with a flaming skull for head to commit acts of non-transigotional activity. Then they go bowling. Some Cannabilistic Humanoid Underground Dwellers turn up too, but nobody cares. They've gone bowling, you see, so these CHUD are of no interest to them. Jeez, keep up.

I'm very pleased with how this story is going so far.

The evening is somewhat spoiled by Daphne being a sore loser and accusing Scrappy of foul-play, but other than that, a lovely time is had by all. The whole 'Scrappy is a dirty cheater' incident is irrelevant anyway, because Shaggy wins easily. Not suprising, considering he's playing against two dogs, a girl and a crime-fighting skeleton. Was Ghost Rider a skeleton? Find out in GHOST RIDER: ORIGIN, coming to all good comic book shops soon. Turns out that Ghost Rider's name isn't really 'Ghost Rider', but actually Arthur C. Thrunkeberry (III), and he was raised in some big crazy mansion, which may or may not be in Canada. Yet another reason to MAKE MINE MARVEL.

A spooky poltergeist turns up later, but soon leaves. And how do I know this? Because I WAS THAT SPOOKY POLTERGEIST! And that freaky little kid was the only one who could see because I'm REALLY ACTUALLY DEAD. And I WAS THE ONE WHO MADE THE TRAIN CRASH HAPPEN SO I COULD FIND YOU. It was the kids you see... they called me Mr. Arse. Oh, and I'm ALLERGIC TO WATER OR SOMETHING SO THAT'S WHY I INVADED A PLANET THAT WAS TWO THIRDS COVERED IN THE STUFF. Three crazy plot twists for the price of one.

Pretty damned impressive.

The End
